

TECHNICAL AND INNOVATIVE SOLAR PROJECTS DAY

JUNE 3RD 2010

Dear all,

The French Cluster Rhône-Alpes Eco-Energies is organising the “**Technical and Innovative Solar Projects Day**” on **June 3rd 2010**. This event will take place at the Savoie Technolac in Le Bourget du Lac (near Chambéry, in Savoie).

The mission of the cluster is to structure and stimulate the market of eco-building in Rhône-Alpes. Our 215 members are active and innovative in this sector, and come to our meetings and conferences to debate, and share competences and expertise.

As an ENERBUILD member, you are invited to join this full day event. The program includes conferences, discussions, technical visits and exchange between experts, researchers and companies.

- **In the morning (from 9.30 to 12.00)** you will be visiting the **L.N.E.S.** (Institut National de l’Energie Solaire - **National Institute of Solar Energy**), where 200 researchers are working on innovative solar projects. Mr V. Jacques-Leseigneur (secretary-general) will lead this visit. During this visit, many different innovative projects will be presented to you.

- **In the afternoon (from 14.00 to 16.00)**, you will have the opportunity to attend a **conference from the CSEM** (Centre Suisse d’Electronique et de Microtechnique – Swiss Electronic and Microtechnical Center) on their **solar and ecobuilding research for innovative SMEs**.
<http://www.csem.ch>

- After the conference (**from 16.00 to 17.30**), a **forum** will allow you to meet and exchange with our members (about 70 will be present), the members of the Belgian TWEED cluster and the Enerbuild project partners.

The visit and the conference will in French.

We do hope your presence will contribute to make it a memorable day.

The meeting point is at 9.30 at Bâtiment Horloge, Savoie Technolac , near Chambéry.

REGISTRATION NOTE

Please send it back before the **14th May 2010** to :

Cluster Ecoénergies Rhône-Alpes
355, Allée Jacques Monod
69800 ST PRIEST
Mail : mdechalendar@ecoenergies-cluster.fr

Mrs / Mr :

NAME OF THE STRUCTURE :

ADDRESS OF THE STRUCTURE :

EMAIL :

- I take part at the visit of the INES
- I take part at the conference of CMES
- I take part at the all day

For further details on the event, please contact :
